- Soft, tankard type turnip
- High energy
- Use as a break crop for pasture renovation

Summer Grazing for all Livestock	
CULTIVAR	LB/AC
Rival Turnip	2
Hunter Turnip	2
TOTAL	4

Rival Turnip is a quality forage crop during times when high production grazing is lacking in a summer pasture. Ready to graze in 60 days, Rival makes an excellent one-off forage when renovating your pasture! Plant in summer with irrigation as a break crop that will halt disease, reduce pests, and disrupt weed cycles. Take it out in the fall and reseed your pasture in fall or spring.

Seeding Rate: 3-4 lb/ac, mix 1 lb/ac **Planting Time: Apr-Aug** **Regions: All** **First Grazing: 60 days**
