

A persistent and durable diploid ryegrass that combines high yield and robustness in less than ideal conditions.

- Densely tillered
- Persistent in summer
- Excellent for continuous grazing
- Rapid recovery and regrowth
- Fast establishing
- Adapted to a broad range of soil and climatic conditions
- Improved rust resistance

WEST COAST WINTER PASTURE MIX	
CULTIVAR	LB/AC
KINGSGATE PERENNIAL RYEGRASS	10
TONIC PLANTAIN	2
CHOICE CHICORY	1
WHITE CLOVER	2
TOTAL	15

Perennial ryegrass a most palatable cool season forage. Unlike most ryegrasses, Kingsgate Perennial ryegrass combines this palatability with excellent persistence even in hot, dry climates and under poor management. Plant in either early spring or August with irrigation. Kingsgate is an exceptional compliment to forage and cover crop mixes with other certified PGG cultivars such as Tonic Plantain, Gala Grazing Brome, brassicas and clovers.

Seeding Rate: 15 lb/ac; Mix 5 lb/ac **Planting Time:** Mar-Aug **Regions:** West **First Grazing:** 60 days
